

This listing of claims replaces all prior versions, and listings, of claims in this application.

**Listing of Claims:**

1-40 canceled.

41. (New) A method for controlling display on a display apparatus in response to one or more processing units, the method comprising the steps of:

determining whether or not to provide an authorization to acquire one of a plurality of predefined display areas in response to an acquisition request for the one of a plurality of predefined display areas from one of the processing units; and

notifying one of the processing units whether or not the authorization is given;

wherein when acquisition requests for the one of a plurality of predefined display areas are received from a plurality of processing units, the authorization is provided to one and only one of a plurality of processing units requesting for the one of a plurality of predefined display areas.

42. (New) A controlling method according to claim 41, wherein the predefined display area is a display plane which is to be mapped onto a screen.

43. (New) A controlling method according to claim 41, wherein the processing unit is an application.

44. (New) A controlling method according to claim 41, wherein the processing unit is a plurality of applications.

45. (New) A controlling method according to claim 41, wherein the authorization is provided to the processing unit having higher predefined priority.

46. (New) A method of controlling display on a display apparatus in response to one or more processing units, the method comprising the steps of:

receiving acquisition requests for acquiring same one of a plurality of predefined display areas from a plurality of processing units,

determining to provide an authorization for one and only one of a plurality of processing units requesting for the same one of a plurality of predefined display areas; and

notifying the one and only one of a plurality of processing units that the authorization is given, and other processing units requesting for the same one of a plurality of predefined display areas that the authorization is not given.

47. (New) A controlling method according to claim 46, wherein the predefined display area is a display plane which is to be mapped onto a screen.

48. (New) A controlling method according to claim 46, wherein the processing unit is an application.

49. (New) A controlling method according to claim 46, wherein the processing unit is a plurality of applications.

50. (New) A controlling method according to claim 46, wherein the authorization is provided to the processing unit having higher predefined priority.
